Course overview: This course introduces physical therapy students to the fundamental principles of professionalism and professional practice within the Quebec healthcare context. Physical therapy students will be introduced to the profession of physical therapy and its various domains of practice. Students will learn the basic skills necessary for professional communication, patient education, and interviewing. They will have the opportunity to practice these skills with simulated patients. Throughout this course students are expected to begin to develop a professional identity. Physical therapists from diverse clinical and research fields will

McGill University is situated on the traditional territory of the Kanien'kehà:ka, a place which has long served as a site of meeting and exchange amongst nations. We recognize and respect the Kanien'kehà:ka as the traditional custodian of the lands and waters on which we meet today.

Travel requirements: students will be required to travel to the Jewish General Hospital to participate in the HELP program. Students may also be required to travel for a clinical site visit which will be randomly assigned to them. The sites are located in Montreal, Laval and
